

Environment Policy

Ages Build Pty Ltd is committed to planning, carrying out and monitoring its operations in order to:

- comply with relevant EPA regulations and other legal requirements, any local council development application consent conditions and any additional customer requirements relating to the environment;
- set environmental targets for each project site in the Environmental Management Plan;
- prevent pollution;
- minimise waste through efficient material and plant utilisation, plus re-use or recycling of material when appropriate. Dispose of waste properly;
- respond promptly to any emergency situation which could cause adverse environmental impacts;
- support the principles of Ecologically Sustainable Development.

Environmental compliance will be regularly reviewed. We aim to prevent problems from occurring and promote continuous improvement towards best practice in environmental management.

Appropriate training and instruction will be provided to ensure that project staff understand how to implement the Environmental Management Plan. Staff are encouraged to offer suggestions about how environmental protection measures can be improved. Such suggestions will be assessed by Steelworks Engineering management and implemented as appropriate.

Ages Build is open about its environmental policy and will make it available to relevant interested parties.

A handwritten signature in black ink, appearing to read "Anthony Agius".
